

A sample program can be used to plan progress in a major. Not all students will follow the sample program, because students are individuals and can make choices to fit their situations. Students should consult their WLC academic advisor. Please note that course offerings may change due to staffing, curriculum changes, and course enrollments.

<b>This sample plan applies to all Mathematics majors. Twelve credits in an application area other than MAT are also required. Students are encouraged to take additional MAT electives whenever possible based on interest and schedule availability.</b>
